

How to Forward Your Email to Rain Design Labs

Use this guide if you use a smaller or custom email provider. Most providers follow the same basic steps.

Forward your email to:
assistant@raindesignlabs.net

If your provider uses different labels, look for words like Settings, Preferences, Rules, Filters, Accounts, Mailboxes, or Forwarding.

Email: help@raindesignlabs.net

Step 1: Open Your Email Settings

Sign in to your email account in a web browser.

Look for a gear icon, profile menu, or button labeled 'Settings' or 'Preferences'.

If you see a simple menu first, click the option that opens full settings.

What to look for in your email app

- Gear icon or menu near the top right
- Settings, Preferences, or Options
- A link like View all settings or More settings

What to look for in your email app

Step 2: Find the Forwarding Area

Inside settings, look for sections called Mail, Accounts, Mailboxes, Rules, Filters, or Forwarding.

Some providers place forwarding under 'Accounts' or 'Mailboxes' instead of a main Forwarding page.

Common labels for forwarding menus

- Forwarding
- Mail Forwarding
- Rules or Filters
- Accounts or Mailboxes

Common labels for forwarding menus

Step 3: Add the Forwarding Address

Look for a button or link like 'Add forwarding address', 'Create forwarding rule', or 'Forward mail to'.

Enter this email address exactly:

assistant@raindesignlabs.net

If your provider asks whether to keep a copy in your inbox, choose yes.

Some providers send a verification email or code before forwarding turns on. That is normal.

Typical forwarding form

- Field for forwarding email address
- Option to keep a copy in your inbox
- Save, Add, Verify, or Continue button

Typical forwarding form

Step 4: Save or Turn It On

Click Save, Apply, Done, or Turn On.

If you created a rule, make sure it applies to all incoming mail unless we set something more specific for you.

Before you finish

- Forwarding is enabled
- assistant@raindesignlabs.net is listed as the destination
- A copy stays in your inbox if that option exists

Before you finish

Step 5: Watch for Verification

Some providers activate forwarding right away. Others send a confirmation email or ask you to approve the forwarding address.

If you see a prompt for verification, finish that step or contact us and we'll help you through it.

If these labels do not match your provider, send us a screenshot of your settings page and we will guide you the rest of the way.

SUCCESS

You're All Set!

Your email is now being forwarded to
assistant@raindesignlabs.net

What happens next:

- We'll test the forwarding to make sure it works
- You'll get a confirmation email from us
- If your provider needs a code or approval, we'll tell you exactly what to click
